Dear Bill;

Here is the information you requested. I am sorry that your first letter was not answered, but to my knowledge we did not receive it.

Our frequency is 540 kilohertz.

We broadcast at 1,000 watts in the daytime, and at 250 watts during critical hours, post-sunset, and pre-sunrise.

Our towers are three-hundre-twenty-one feet tall.

We broadcast from 5am until 1am currently, however we are licensed for twenty-four hours.

We cover the Tri-State area (coverage map enclosed).

Our studio and transmitter are located just outside of Canonsburg PA.

We are affiliated with the Satellite Radio Network (SRN).

Furthest reports are from Manhatten New York, and somewhere in South Carolina, at night.

Our format is Inspirational Programming during the day, and Contemporary Christian Music at night.

As far as I know, yours is the first DX letter that we have received.

I hope this information helps you.

Sincerely,

Bruce K. Northey

Bruce K. Northey
Program Director, WARO.
